

JOIN OUR LEARNING COLLABORATIVE ON Pediatric Anxiety

7:30 - 8:30 AM • September 3, 2020 - August 5, 2021 • First Thursday of the month

Oregon Pediatric Society is offering a collaborative learning opportunity focusing on pediatric anxiety. The ECHO (Extension for Community Healthcare Outcomes) model is a telementoring platform that leverages video conference technology to connect experts with primary care teams in local communities, fostering an all teach, all learn approach. Each session will include didactic and case presentations.

Target audience includes child health primary care providers, school based health centers, and behavioral health professionals.

Participants will have the option to complete quality improvement projects, resulting in **25 MOC Part IV credits for 2021**. Participants will also be able to earn up to **11 CME credits and 9 MOC Part 2 credits**.

- Promotion of health social and emotional development as primary prevention
- Anxiety and Screen Time
- Prenatal, Infant, and Toddler Anxiety Symptoms
- Preschool and Elementary Anxiety Symptoms
- Teen Anxiety Symptoms
- Medications for Anxiety
- Behavioral Approaches and Support Services
- Complementary Alternative Medicine
