

Member Benefits

Membership is an investment in your professional network, your career, and your community.

BE AN ADVOCATE

- **Champion the causes you care about.** Join others in efforts focused on child health, primary care, pediatric clinical care, and health equity.
- **Make your voice heard and shape the future of pediatric care.** Connect directly with elected officials to influence health policy, payment reform, and related legislative efforts through state advisory committees, provision of testimony, and media opportunities.
- **Stay ahead of the curve.** Receive timely alerts and get involved in critical local, state, and national advocacy actions.

MAKE CONNECTIONS

- **Stay in the loop.** Get real-time chapter updates, CME opportunities, and valuable resources through social media, members-only newsletters, and the OPS website.
- **Build your professional community.** Connect with fellow pediatric providers at virtual and in-person events.
- **Amplify your impact.** Collaborate with partner organizations working to advance child health statewide and beyond.

TAKE THE LEAD

- **Be a champion.** Engage in activities aligned with your expertise and interests to represent the child health community in local, chapter, district, and national forums.
- **Drive strategic change.** Participate in member committees, take on state-based leadership roles, or join the Board of Directors to guide strategic priorities and efforts for Oregon's pediatric community.
- **Advance your leadership career.** Pursue AAP leadership positions and apply for competitive CATCH grants to fund your professional development.

GET EDUCATED

- **Secure member discounts.** Attend our annual CME conference with a discounted members-only rate.
- **Receive continuing education credits.** Participate in live webinars, access on-demand videos, and join OPS-led QI and MOC-IV project cohorts featuring the latest innovative, evidence-based practices.
- **Expand your clinical toolkit.** Receive focused training and support on behavioral health, child development, pediatric screening tools, referral resources, and reimbursement strategies.
