

Youth Suicide Prevention for Pediatric Providers: Intervention

Intervention + Safety Planning = Lives Saved

The Oregon Pediatric Society is offering this series of two, 1.5-hour virtual skills booster training sessions that focus on youth suicide intervention. The training includes an overview of concepts, tools, and office workflows; large-group case-based learning; peer sharing and safety planning. The first session uses case examples to guide participants through evaluation of lethality and feasibility of different scenarios and means of harm. The second session focuses deeply on one case example to engage participants in creating a safety plan to support a youth and their caregiver.

Learning Objectives

- Increased understanding of the importance of universal screening for suicide risk.
- Familiarization with the most common means of death by suicide and how to assess risk based on the feasibility and lethality of method.
- Improved comfort with using safety plans to intervene with youth experiencing thoughts of suicide.

Logistics

Each skills booster training session includes 1.5 hours of virtual learning. The trainings are complimentary and build on each other. Feel free to sign up for one, or both.

Instructors

Erin Madison, MD, FAAP
Pediatrician,
Hillsboro
Pediatric Clinic

Allison Huntley, MSW, LCSW
Licensed Clinical
Social Worker,
Hillsboro
Pediatric Clinic
